

Aldwych Speed Club

COVID-19 Statement

During the current Covid-19 pandemic, the club has undertaken a specific risk assessment to ensure that we are following government guideline and BIS best practice. Now we are back on ice the document "How sessions will work" provides information on all aspects of attending the Spectrum, and both off-ice and on-ice practices to help us minimise the risk from coronavirus. This document will be amended from time to time, to reflect changes in government guidelines and learning from training sessions. We would welcome feedback on how the sessions have been going and any ideas for improving how we train through these challenging times. Please contact the club's Covid-19 Officer: Julia Branagan.
